3.1 The quarterly instalment payment is calculated by using the following formula.

$$\text{Quarterly Instalment Payment (E)} = \frac{A - C}{B}$$

Where,

A	Estimated Tax Payable (Amount declared in Cage 120)
B	Number of instalments remaining including the current instalment*
C	Tax payments made prior to this instalment **

Gain derived or expected to be derived from the realization of an investment asset during a year of assessment shall not be considered for the purpose of quarterly installment.

*** Number of instalments remaining including the current instalment - B**

Instalment	1st	2nd	3rd	4th
“B”	4	3	2	1

**** Tax payments made prior to that instalment – (C)**

Following payments are considered as payments for above **C**;

- a) Previous instalment payments, and
- b) any withholding tax (WHT) payments including Advanced Income Tax (AIT) paid /withheld prior to the due date of the payment of the current instalment payment.

3.2 Calculation of Net Quarterly Instalment payment
